What started as a small group at the Activities Fair (left) quickly became a large-scale collaboration between many students, professors and local architects and engineers. Below, two members of the team get ready to ship out to the National Renewable Energy Laboratory. The group's entry in the Decathlon was called the Solar Homestead.

The Fencing Club has made a lot of progress this year. We bought new equipment, taught more than 20 beginners (including those who took our winter-term workshop class), visited and fenced at the club in town, and formed a team of more experienced fencers to compete with other schools. We hope to have a meet with the UVM club this spring. We also instituted a tradition of hosting a tournament, open to all students as well as members of the surrounding community, at the end of each semester. Most importantly, we had fun fencing and we look forward to another great year!

Stuck in the Middle

Stuck in the Middle (SIM) had an action-packed year! We released our third album, clap.stomp., in January. In addition to many events on campus, SIM ventured further into the college community, something which we hope to continue in the future. SIM also made its way to Boston, New York City, and Connecticut for two, very successful tours. Looking back, it was a great year for SIM, and all the while, we managed to keep it fresh, classy, and fun!

Julisa daughter of my heart, I have enjoyed watching you grow from a baby to a beautiful accomplished woman. It seems as if it was yesterday I carried you in my arms and sung you lullabies to sleep. Today you have graduated from college and have made your father and me the happiest parents in the world. Our entire family is very proud of you.

Love,
Fatima Constante Lewis and Anthony.

To my baby girl: As you enter this next stage in your journey, remember success is not the key to happiness. Happiness is the key to success. If you love what you are doing, you will be successful. Go and be happy, love deeply and remember I will always be there with you.
